

## Jesus's Scientific Consultancy for Industrial and Academic Research (JSCIAR)

### Acknowledgements

1	<p>Grateful thanks are due to my LORD, my GOD Jesus Christ for making faith becoming sight by bringing into existence the Consultancy, JSCIAR by providing the counselling and financial resources to buy the domain from the web host Green Geeks on 24<sup>th</sup> November 2021, for 102 USD, Rs 7627, amidst joblessness for over 7 months. These were indeed tough times. The source of this money is the savings from the postdoctoral fellowship generously provided by Professor Xinling Wang, SJTU from 13<sup>th</sup> April 2019 to 24<sup>th</sup> April 2021. Jewish people have the good habit of making a record of historical events to follow the command "O my soul, forget not the mercies of the LORD. Psalm 103:1". This list of acknowledgements is to maintain a historical account of the consistent mercies of the LORD most high in sustaining the consultancy.</p>
2	<p>Grateful thanks are due to his doctoral supervisor (30<sup>th</sup> May 2002 to 31<sup>st</sup> July 2010) Professor T K Varadarajan for being a blessing to Dr Indra Neel Pulidindi, in that, he was selected for Ph D admission into IIT M in a selection panel meeting held 30<sup>th</sup> May 2002. Ever since, this first meeting of Professor TKV with Dr Neel, Professor TKV has been a gentle supervisor who never said "NO" to any of his requests that made Dr Neel to reach out to many researchers and extend his helping hand to multitudes in many ways. Dr TKV used to say "Indraneel, you want everyone to be in IIT M to pursue their research, how is this possible. Yet, Professor TKV made this possible by not denying entry even to his laboratory to any of those students outside IITM to pursue their research projects in his laboratory to win their academic degrees. This is only one example of the many good things Dr Neel received from TKV. By then, ie, 30<sup>th</sup> May 2002, the consultant was already blessed with a Chemist job in Asian Paints selected in Andhra University campus interview, held on 23<sup>rd</sup> May 2002. Yet, the consultant wanted Ph D and travelled in Howrah-Chennai mail in general compartment in most difficult and poor conditions to attend the Ph D selection interview scheduled on 30<sup>th</sup> May 2002. Though his mother opined that his pursuit for Ph D studies is a wild goose chase, the struggle for education of the consultant continued and he was in deed blessed with success by HIS GOD Jesus Christ, when his faith became sight on 30<sup>th</sup> July 2010 when the consultant received his Ph D degree from IIT M. All those the eight years of his association with Professor TKV, Professor TKV was what Boaz to Ruth, to Neel. This story is to sow the faith of mustard seeds in those that intend to take difficult path in their career.</p>
3	<p>Grateful thanks are due to his postdoctoral (2<sup>nd</sup> September 2010 to 30<sup>th</sup> October 2016) supervisor, Professor Aharon Gedanken, Israel, for his steadfast collaboration in all the scientific endeavours of the consultant and teaching him how to respond to intellectuals.</p>
4	<p>Grateful thanks are due to his doctoral co-supervisor Professor B Viswanathan for introducing him to many new areas of scientific research as well as many new socio economic activities (like filing of patents, CPCL, CCC projects, Children's club lectures, Catalysis orientation programme for research scholars, ebook and book compilations projects and many more) beneficial to the nation India.</p>

5	Grateful thanks are due to Mr Javed Khan for introducing the web designer Mr Ashok that was kind in initiating the web designing with a nominal service charge of Rs 3000/- in addition to helping the consultant to buy the domain space using his own card as such international money transactions could not be done using the debit card (Canara bank) that the consultant held.
6	Grateful thanks are due to Mr Dinesh for teaching the consultant on 23 <sup>rd</sup> December 2021 to upload the content in the website
7	Eyes have not seen, years have not heard and human heart has not comprehended the things that GOD prepared to those that love Him. Indeed this promise is true. While initiating the schedule on 7 <sup>th</sup> January 2022 for the summer school to be held from 2 <sup>nd</sup> to 10 <sup>th</sup> May 2022, the consultant opined that all lectures need to be delivered by him alone as he hold no affiliation and manpower to support his endeavours. But God prepared the speakers ahead of schedule. Grateful thanks are due to Dr Archana Deokar, Dr Siddique Ahmad, Dr Fameeda Kausar, Dr Yang Chongchong, Dr Alex Tangy for being spontaneous in accepting the invitation for delivering the lecture in the summer school for school and college going students to be held from 2 <sup>nd</sup> to 12 <sup>th</sup> May 2022.
8	Grateful thanks are due to Nova Science, MDPI, Bentham, Elsevier, ACS publishers for recognizing the consultant as the Scientist by publishing his works and also granting him the special privilege to have the first glance of the new scientific developments around the globe by granting him the opportunity to referee over 100 papers in their renowned international journals.
